

GLOBAL DELIVERY CENTERS · SERVICE PROFILE

Offshore Development Center

Your own engineering team, reporting to you, on your roadmap only — no entity setup, no leases, no hiring risk. You own all code and IP.

THE CHALLENGE

Every month without enough engineers, your roadmap slips and revenue waits. Building abroad yourself takes months of entity setup, leases, and hiring risk. Outsourcing vendors split attention across clients. Either way you pay — in delay, in overhead, or in a roadmap you no longer control.

OUR APPROACH

You get a dedicated team that reports to you and works only on your roadmap. We recruit, house, equip, and run the center 24/7. Which means you add engineering capacity in weeks, not months. You keep full code and IP ownership. The legal, facility, and payroll load stays off your books.

What you get

01

Engineers Who Report to You

Your engineers use your tools, standards, and workflows from day one. They report to you, not to us. Which means you direct the work, not a vendor.

02

Nothing to Build Abroad

Recruiting, workspace, equipment, HR, and payroll are run for you 24/7. Which means nothing abroad needs to be built, staffed, or licensed by you.

03

You Own Everything

Every repository, credential, and architecture decision transfers to you outright. Nothing stays with us. Which means no lock-in, ever.

04

More Output Per Engineer

Your center can draw on our in-house AI practice — private models, document intelligence, workflow automation. Which means your team ships more than headcount alone.

05

Your Data Stays Protected

Vetted hires, access controls, and audit trails protect your data and your clients' data from day one. Which means your own audits get easier, not harder.

06

Scale Without New Overhead

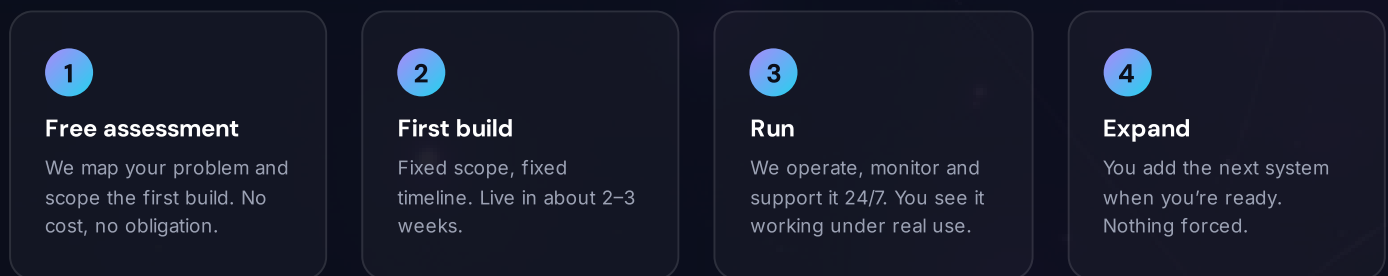

Grow from a small pilot to a much larger center. No new hiring cycles, leases, or legal entities. Which means capacity follows your roadmap, not your paperwork.

OFFSHORE DEVELOPMENT CENTER

What's in scope

- ✓ Dedicated, secure workspace and infrastructure
- ✓ Full source-code and IP transfer to you
- ✓ Direct reporting lines into your organization
- ✓ Security, governance and compliance oversight
- ✓ Candidate sourcing, vetting and technical screening
- ✓ 24/7 HR, payroll and facilities administration
- ✓ Tooling and workflows aligned to your practices
- ✓ Retention and career-development programs

How you start

PROVEN ON US

19+ years of global delivery behind your ODC — run by people who operate our own hub in Gujranwala daily. Which means proven, not theoretical.

Book your free assessment

Free assessment → fixed-scope first build, live in ~2–3 weeks → run & expand.
